

Lu Zhipeng, Ph.D. and Yilin Song, Ph.D.
Center for Health Systems & Design
College of Architecture
Texas A&M University
and UIA - Public Health Group

Paris, 14 November 2016

Dear Dr. Lu and Dr. Song,

The UIA is pleased to endorse the 2017 International Student and Young Architects competition, Smart, Green & Beyond: Healthcare Facility of the Future, organized by the UIA Public Health Group.

The Smart, Green & Beyond competition marks the second collaboration between the UIA and the Public Health Group, and we again applaud your hard work and excellent organisation. We hope that the project will encourage young architects and students of architecture to apply their talents to addressing the challenges of technology, cost and sustainability that currently face the healthcare industry.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Thomas Vonier', is written over a light blue rectangular background.

Thomas Vonier, Secretary General
